Recommendations

- Put most money into **Cant lose them, New and At risk**. They have the most room to improve.
- Give **Champions** perks, not discounts. 88% buy anyway.
- Keep **Lost** to a cheap automated email (capped at 5%).

***Note:** Uplift, margin (30%) and cost per customer are assumptions, not measured data. ROI covers contact cost only and excludes discount cost, so it is an upper bound. Results apply to identified customers only (about 77% of transactions)*
